National Education Standards
Addressed by the lesson for the website, *American Indian Responses to Environmental Challenges*

**National Curriculum Standards for Social Studies** (National Council for the Social Studies)
- Theme 3: *People, Places, and Environments*. Social studies programs should include experiences that provide for the study of people, places, and environments.

**United States History Content Standards** (Grades 5–12, National Center for History in the Schools)
- *Era 10: Contemporary United States (1968 to the present)*. *Standard 2*: Economic, social, and cultural developments in contemporary United States

**National Science Education Standards** (National Academies of Science)
- *Science in Personal and Social Perspectives*. As a result of activities in grades 5–8 and 9–12, all students should develop understandings of:
  - Personal health
  - Populations, resources, and environments
  - Natural hazards
  - Risks and benefits
  - Science and technology in society

**Excellence in Environmental Education Guidelines for Learning** (K–12, North American Association for Environmental Education)
- *Strand 2.4, Environment and Society*
  - Human/environment interactions
  - Places
  - Resources
  - Technology
  - Environmental Issues
